

Internet Access Setup Instructions

Here are some sample screen-captures from Macintosh packages.

NTS PPP Dialer Setting:

The screenshot shows the "Dial•Up Connection" window with the "Account" tab selected. The "Username" field contains "Your Username Here", the "Password" field is masked with dots, and the "Phone Numbers" field lists "736-4200" and "589-0150". The "After Modems Connect" dropdown is set to "Start PPP". The "Status" bar shows "Not connected." and there are "Info..." and "Connect" buttons at the bottom.

Account	Modem	Misc.	Handshaking
Username: Your Username Here			
Password:			
Phone Numbers: 736-4200 589-0150			
After Modems Connect: Start PPP			
Status: Not connected.			
Info...			Connect

FreePPP Dialer Settings:

The screenshot shows the "FreePPP Setup" window. It features a "Connect" button, a status bar with "Not connected. Click 'Connect' to dial.", and three dropdown menus: "Connect to:" (Untitled), "From:" (Home), and "Using:" (Generic Modem). A version number "2.6.2" is visible in the bottom left corner.

Connect to:	From:	Using:
Untitled	Home	Generic Modem
